

Pantry Client Survey Results - Spring 2025

How much of the food provided by Beyond Hunger do you eat?

92% of our clients responded that they use all or most of the food Beyond Hunger provides.

What food categories from Beyond Hunger do you use?

Fresh produce, frozen protein, and dairy categories all ranked above 75% usage. We are encouraged to see that the plant-forward category is above 50% also.

As we continue to strive to provide nutritious and quality foods for our clients, we can see a trend in the numbers.

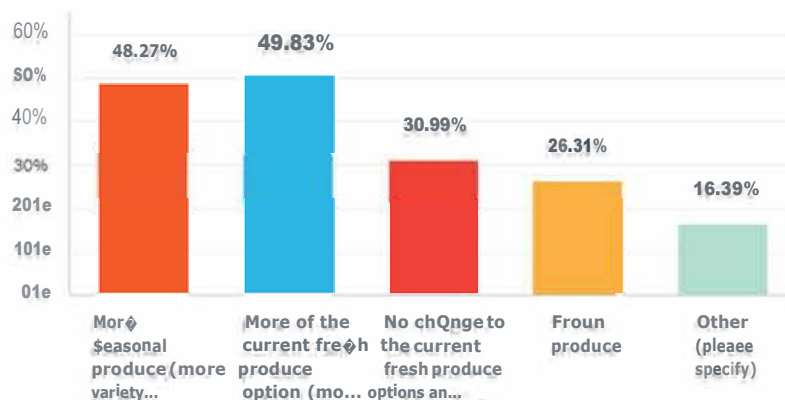

- When asked about their produce preferences, most clients would like more of the current options given and/or more seasonal produce. There is also a desire to have frozen produce.
- Over 75% of clients responded they are pleased with what they receive, 25% would like more culturally familiar foods and 15% would like to see more options for allergen-free foods and special dietary needs.
- The Community Market (67% prefer) and the Drive-Thru (75% prefer) models continue to rank similarly from previous surveys and proportionally as we see the number families served also rising this past fiscal year.
- 89% of our clients travel by vehicle, 25% either take public transportation or walk to our Pantry.

Our next step is to reach out to several clients by conducting brief interviews to dive deeper into some of the responses given on the survey.

Our Client Advisory Council members and our volunteers were a tremendous help in conducting the surveys and providing hours of data entry. We will continue to keep the clients involved in our programmatic development, strive to make changes where possible, and as always continue to serve with dignity and respect.

Q8 We want to meet your produce preferences. What would you like to see more of at Beyond Hunger? (Choose all that apply)

Which of the following types of food(s) would you like to see more of at Beyond Hunger? (Choose all that apply.)
