

ABOUT

Equal Hope's Medical Homes project provides people with access to a regular doctor. A doctor who sees you regularly gets to know you and your well-being. Just as important, you get to build a relationship, which leads to mutual trust, confidence, and understanding.

Equal Hope will set you up with a regular doctor and cover the initial visit fee if you are uninsured and do not have a regular place to go for care.

DO I QUALIFY?

- Are you uninsured?
- Do you not have a regular doctor or a clinic that you usually go to for care?
- Have you not seen a doctor within the last year outside the Emergency Room?
- If you answered yes to all these questions, you likely qualify for Equal Hope's Medical Home Project

Partners include:

- CommunityHealth
- Chicago Family Health Center
- Planned Parenthood
- Mile Square Health Center
- Esperanza Health Center
- Lawndale Christian Health Center

BENEFITS

- A doctor who regularly sees you, knows you better and can make a better diagnosis based on changes in your health
- The doctor can manage chronic illnesses or complex health conditions you have
- Regular visits can find problems early before they get worse. They can help you avoid getting some illnesses
- They can help you avoid emergency room visits.
- Regular visits can lower your healthcare costs and improve your life.

WHAT SHOULD I EXPECT ON MY FIRST VISIT

- Physical exam
 - Immunization review and update
 - Heart disease screening
 - Cancer risk screening
 - Sexually-transmitted disease testing
 - Evaluation for depression
 - Counseling
- *Services may vary depending on patient concern
